

Savuti & Khwai • Botswana Mobile Photographic Safari 1-7 October 2018

Join Wildlife Photographer **Hannes Lochner** for an unforgettable **7 days** Photographic Safari Experience to the **Okavango Delta**.

Savuti, Chobe National Park • Located in the south-west of the Chobe National Park, comprising a lush, expansive marsh, riverine habitat and mopane woodland. Its characteristic granite hills provide a visual relief with a three-dimensional perspective for those accustomed to the flat topography of the rest of Botswana!

With food scarce during the past Savute Channel drought, the lions became specialized hunters of elephants and continue today, despite the abundance of alternative food sources.

The annual zebra migration is followed by high numbers of predators, mainly lion, which can make for action packed sightings in Savute. Good sightings of cheetah and leopard are also probable, along with that of the endangered wild dog.

Khwai Concession • This mopane dominated 1800 sq km wildlife concession is located on the eastern edge of the Okavango Delta, on the edge of the Moremi Game Reserve. The Acacia and Leadwood lined Khwai River itself is the sole source of water for miles around, and is frequented by a spectacular array of game. Khwai is made up of sweeping grasslands, riparian forests and floodplains that are flooded most of the year. This is the raptor capital of Botswana: fish eagles, bateleur, tawny, martial and brown snake eagles line the river bank alongside lanner falcons. Resident packs of Wilddog offer some of the best opportunities with this species. Lion, leopard, cheetah, and hyena are commonly sighted at Khwai.

About the Camp

'Your Home Away From Home'

A warm and homely atmosphere permeates the camp whilst offering all the luxuries and essential comforts one would never imagine could be provided in a wilderness this remote.

Safari Style

A mobile-tented camp is a self-sufficient luxury unit transported in a custom designed camp truck. Real beds await you in your luxurious mini Meru-tents with en-suite bathrooms, after a long day of adventure. Sleep on proper beds between pure cotton sheets. Each private bathroom is a canvas enclosure housing bucket showers, mirror and table and a traditional 'long-drop' toilet (these toilets are managed daily by the staff to ensure they are clean and un-offensive).

No detail is forgotten from the wake-up calls with hot water, tea and coffee, to the scrumptious high teas served before your afternoon game drive. If you prefer to lounge in camp in the afternoons, a library stocked with African books, day beds and hammocks will be waiting to relax you.

Your Meals

Our meals are beautifully prepared and presented by our skilled chef with emphasis on fresh tastes and original interpretations of classic dishes. Three course meals include such offerings as rare roast Botswana beef, delectable fresh herb salads and light, but rich desserts.

Light continental breakfasts and wholesome brunches are served every day. With safety, security and serenity being our priority, lively campfires, hurricane lanterns and hand torches serve as lighting throughout the evening meals in camp.

Packed lunches, coffee and tea, snacks, as well as sundowners are provided on your day trips and game-drives. And of course what would an unforgettable game drive be without a fully stocked fridge full of refreshing drinks of your choice.

The Camp Staff & Hostess

'The fires that ignite your safari' provide the excellent service allowing Guests to enjoy the comforts of an organized camp resulting a seamless safari experience.
